Session 1 **Bubble Fun!**

This week we will be having a blast with bubbles! We will have a small bubble pool to allow for experimenting with different shapes. Everyone will have fun with “bubble-ology!” mixing science discovery and bubbles. Summertime and bubbles.... two things that are meant to be together!

Session 2 **Cooking Around the World!**

Who wants a "taste" of the world?! In this hands-on cooking camp, we give the children a tour of global cuisines, including Italian, French, Mexican and more! They will also be learning kitchen fundamentals, knife skills, measuring, and much more!

Session 3 **Celebrate Eric Carle!**

Campers, campers, “What Do You See?” “A Very Hungry Caterpillar” or “Grouchy Ladybug?” Explore the world of Eric Carle’s stories and illustrations through art projects, food preparation, and other exciting activities! Join your “Friends” while you reach for “Little Cloud” and learn “From Head to Toe.”

Session 4 **Explore the Ocean!**

Explore the five oceans of the world and learn about the amazing plants and animals that call the oceans home. Bring your bathing suit because we’re going to get wet! Enjoy a variety of water activities throughout the day that help bring the ocean theme to life.

Session 5 **Artful Antics!**

Children are encouraged to set their imaginations free as they explore their creativity! Activities include creating unique artwork using various traditional and non-traditional art mediums such as feathers, foam, pipe cleaners, glitter glue, watercolors, finger paint and more! Throughout the week, different artists will be featured!

Session 6 **Knights and Princesses!**

Join us as we discover the magical wonder of folklore and fairy tales! You will read and listen to tales from all over the world, both old and new. You will create craft projects, perform skits, sing, dance, and enjoy your journey through these stories.

Session 7 **Blast-Off to Outer Space!**

Blast off in this exciting camp to learn about our solar system! Gain knowledge about the planets, stars, space travel, and more. You will learn about outer space through stories, crafts, games, outdoor activities, and more. The universe is your playground on this adventure!

Session 8-a **A. First STEM!**

Science is all around us, but the best part is getting to build and experiment! During this week, children will put on some safety goggles and try new things! Activities include: structure building challenges, experiments with buoyancy, changes in the states of matter, chemical reactions and much, much more! Be prepared to learn about how some ordinary things can become extraordinary through science!

Session 8-b **B. Summer Montessori** **Session time 9:00-12:00** **Fee: \$150**

Open to students enrolled for the 2015-2016 school year at Woodside Montessori Academy. Give your child the tools he or she needs to hit the ground running when the new school year starts. This class is designed to introduce students to Montessori, to school, and to the basic concepts and expectations of their new environment. Your child will gain a higher degree of comfort and familiarity with the school, which will enable him or her to make a quick transition to the classroom once school starts.
