

# Project Explore! Featuring -

**Ages: 6 through 11** (\*\*MUST have completed Kindergarten)

**Dates** Session 1: July 8-12

Session 2: July 15-19

Session 3: July 22-26

Session 4: July 29 – Aug 2

Session 5: August 5-9

Session 6: August 12-16

**Program Hours:** 9 am – 2:00 pm

**Cost:** \$385.00

**Before Care:** 8-9:00 **Cost:** \$50/week

**After Care:** 2:00-4:00 **Cost:** \$100/week

## **Session 1** *Maker Mania Part 3*

Join us for an exciting journey of hands-on learning and fun at our Makerspace-themed summer camp. Children will learn to use three different types of software as they explore 3-D printing, vinyl cutting, and Laser Etching. Using the Cricut children will create their own custom tie-dye t-shirts, create their own custom night light, and will make their own reusable shopping bag to hold their creations. Using an Ortur laser children will etch a portrait of themselves, create a unique book mark, and a cool dog tag necklace. Finally, children will learn how to use Tinkercad to 3-D print various fun projects each day.

## **Session 2** *Ultimate Sports Adventure Camp*

Join us for an action-packed week at the Ultimate Sports Adventure Camp! This camp is perfect for young athletes, offering a dynamic blend of classic sports, team-building games, and exciting activities. Each day children will learn a new skill and practice the fundamentals that will allow them to participate in an exciting whole group activity. Children will learn teamwork, healthy exercise habits, and have fun. Children Grades 2 and up will have the opportunity to participate in the Archery Adventure as they discover the art of archery under the guidance of a skilled instructor.

## **Session 3** *Sewing Bees around the World*

Embark on a fun sewing adventure in this beginner class—no prior experience needed! Sewing not only adds an element of enjoyment but also enhances focus, eye-hand coordination, and the pincer grip. The class covers the basics, including understanding a sewing machine, proper threading, its functionality, and safety guidelines. Participants will also engage in hand embroidery.

This year's theme is "Stitching Around the World." First stop: the San Blas Islands of Panama, exploring the traditional Mola technique to craft a pillow. Next, venture to Africa to discover fabric printing using a wax resist method, creating a unique fabric for an eco-friendly shopping bag. Finally, travel to Japan to learn the centuries-old Sashiko hand sewing technique, crafting a wall hanging and incorporating applique with the sewing machine. Join us for a creative and educational journey through the art of sewing!

## **Session 4** *Coding Creations*

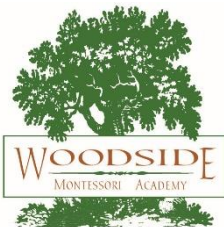

Come join us for a fun week of learning how to code. This is a camp for children of all ages and levels of experience. We will begin the week by learning about block coding as we explore several different types of robots including Tello drones, Kibo Robots, and Photon. As the week progresses, we will move into scratch-based coding as we work with Sphero bits and the RVR robots to create programs that allow the robots to navigate a maze and complete a task. Children that have previous coding experience will also have the opportunity to use Scratch to create many different fun activities including coding their own videogame.

## **Session 5** *Exploring Modern Music History*

Students will go on an exciting and informative journey through the history of modern music. Designed to introduce students to the concept of modern music and its historical significance, each day will focus on a specific genre or era, with engaging activities, discussions, listening exercises, and projects. From the origins of jazz and blues to the rise of rock and roll, the emergence of pop music, and the evolution of hip-hop.

## **Session 6** *Crazy Concoctions*

Join us to become a chemist for the week during Crazy Concoctions! This wonderful week is every aspiring chemist's dream! Students will mix and experiment all week as they learn about states of matter, solutions and mixtures, suspensions, density, conductivity, crystals, salts, acids and base, pH, chemical reactions, and SO MUCH MORE!!!

# 2024 Summer Program Registration

## Project Explore! For Grades K - 5

\*Must have completed kindergarten

Must register by JUNE 1st: t-shirt size: YS \_\_\_ YM \_\_\_ YL \_\_\_ YXL \_\_\_
